Purpose

The purpose of this specifications document is to provide the requirements and conditions for filing Suspicious Activity Report by Money Services Business (SAR-MSB), FinCEN Form 109 via magnetic/electronic media.

General requirements and conditions for filing all SAR documents will be found in the General Specifications for Electronic Media Filing document. Go to: http://www.fincen.gov/reg_bsaforms.html under “**Magnetic Media Filing Specifications.**”

These specifications also apply to filing of SAR-MSB documents electronically via the Internet. A free secure E-Filing system is available to file this report. Go to <http://bsaefiling.fincen.treas.gov> for more information and to enroll.

Data Sequencing and Validation Criteria

The following data controls must be followed or the SAR-MSB Magnetic/Electronic Media will be rejected. The data records **must be** in the following sequence:

- Transmitter (1A)
There can only be one of this record type and it must be the first record on the file.
- Parent Reporting Business Headquarters (2A)
There can be more than one of this record type depending on the number of different financial institutions which are included on the file. This record type will immediately precede all records which relate to the financial institution. **Include this record with only the first two fields completed if it is the same as the Transaction Location Information (2B) record.**
- Transaction Location Information (2B)
There can be more than one of this record type depending on the number of transaction locations which are being reported. One of these records will immediately precede all SAR-MSB records for the Transaction.
- Multiple Transaction Location Information (2C)
This is for multiple locations being reported for the same SAR-MSB. There can be more than one of this record type depending on the number of transaction locations which are being reported.
- Suspicious Activity (3A)
There can be more than one of this record type on the file depending on the number of suspicious activities documents being reported for a financial institution transaction.
- Subject Information (4A)
There can be more than one of this record type dependent on the number of persons involved in this suspicious activity.
- Money Order Information (5A)
There can only be one of this record type per document. If more than three money orders need to be listed, record the additional information in the Narrative Description (7A) Record.

Data Sequencing and Validation Criteria *(continued)*

- Travelers Checks Information (5B)
There can only be one of this record type per document. If more than three travelers checks need to be listed, record the additional information in the Narrative Description (7A) Record.
- Money Transfer Information (6A)
There can only be one of this record type per document. If more than three money transfers need to be listed, record the additional information in the Narrative Description (7A) Record.
- Currency Exchange Information (6B)
There can only be one of this record type per document. If more than two currency exchanges need to be listed, record the additional information in the Narrative Description (7A) Record.
- Narrative Description (7A)
There can be multiple occurrences of this record, depending on the length of the explanation given for the suspicious activity.
- Transaction Location Summary (9A)
There must be one of these records for each 2B record of a reporting business being reported. It is to be the last record associated with the 2B record.
- Parent Money Services Summary (9B)
There must be one of these records for each reporting business being reported. It is to be the last record associated with the reporting business and will follow the Summary (9A) Record for the last transaction location reported.
- File Summary (9Z)
There must be one of these records on the file and it must be the last record on the file.
